

An aerial photograph of a green roof system. The roof is covered with a dense layer of small, green, succulent-like plants. A drainage channel, colored in shades of blue and green, runs along the edge of the roof. The roof is bordered by a concrete curb, and the surrounding area is a light-colored concrete surface. The Soltec logo is visible in the top right corner.

# MODELS

## CLASSIC

Embrace effortless waste disposal with the Soltec Classic Waste Enclosure model. This reliable and stylish enclosure offers all the essentials for everyday waste management without sacrificing aesthetics.

- Effortless everyday waste disposal: the Classic model offers all the essentials for convenient waste management.
- Stylish and durable: designed with high-quality aluminium structure and weather-resistant cladding for long-lasting performance and seamless integration with your outdoor space.

- Multiple compartments: easily separate recyclables and general waste with dedicated bins (3x240 l)
- Easy maintenance: smooth surfaces and weather-resistant materials ensure effortless cleaning.
- Open design with a raised independent bottom: air can circulate freely, preventing odours and moisture buildup.
- Integrated drainage system: channels rainwater away from the lid, preventing water from pooling and causing damage.

## SMART

The Soltec Smart Waste Enclosure takes everything you love about the Classic model and adds a touch of innovation and eco-friendliness. Enjoy all the benefits of the Classic, including high-quality materials, multiple compartments, and easy maintenance.

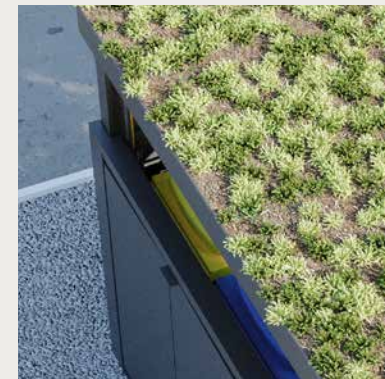

**NO TOUCH**  
Motion-sensor

### Say goodbye to messy struggles!

Waste Enclosure with motion sensors opens automatically when you approach, making disposal convenient and hygienic. No more touching dirty lids or leaving fingerprints - just wave, and the top lifts instantly. This hands-free operation reduces germ spread. Plus, these smart sensors only activate when needed, saving energy for an eco-friendly touch. Upgrade your waste management with the cleaner, simpler, and more sustainable option of motion-sensor Soltec Waste Enclosure.

## GREEN ROOF

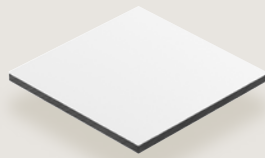

Soltec Waste Enclosure can become a living, breathing extension of nature. Choose a selection of no-maintenance plants or create a flower bed. Thus you can create a functional and environmentally sustainable solution that enhances the aesthetics of your waste enclosure and contributes to a greener urban environment.

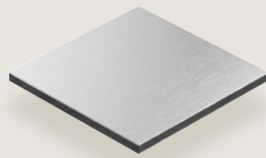

## EXPRESS YOUR STYLE

Let your Waste Enclosure reflect both style and strength with the enduring appeal of ALU composite cladding. Forget the worry of fading, chipping, or corrosion; embrace timeless beauty that withstands the elements.

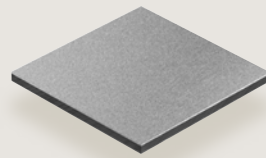

Unleash your design vision with a vibrant palette of bold, modern colours or opt for the subtle sophistication of textured finishes.
